IN SEARCH OF KNOWLEDGE

Dear Parents/Carers,

Many thanks to the AECG for running another meal deal day this week. Staff and students enjoyed their nuggets, popper and zooper dooper yesterday.

Year 6 are in attendance at their third Nyngan High School transition day. They all arrived this morning with a great deal of confidence. This is a very worthwhile program which helps the children familiarise themselves in preparation for a confident start to school in 2023.

Year 6 girls took part in Sista Speak and Year 6 boys took part in Bra Speak yesterday whilst the entire of Year 6 took part in Storylines on Wednesday.

Students have received positive reviews for their presentation items from visitors to the school this week. We cannot wait to share them with you on the 6th of December.

We would like to thank Cassie and Mick who have done a great job brightening up NPS windows in celebration of the festive season.

Kylee Pearce

GERRIC for Gifted Students Program

Helping bright young minds thrive

January 2023
Online & on-campus

9-13 January
2023

Online

UNSW Campus,
Kensington

9:00am - 3:00pm

We are excited to announce that our GERRIC Student Programs will return in January 2023! Our Scientia programs will be run both online and on-campus to provide students with the choice of what works best for them. This is a school holiday program that expands the minds of bright, inquisitive individuals looking for an intellectual challenge that is more demanding and more fun than they may sometimes experience at school.

All courses are 3-day workshops. Registration will be available from 10 November 2022.

Junior Scientia: Years 3 - 6

The Junior Scientia program is designed for gifted and talented primary school students in Years 3-6. To participate in the program, students will select one three-day workshop from a range of options.

All workshops are developed and presented by experienced teachers who are qualified or experienced in gifted education. They possess the expertise and skills to encourage the interests and pique the curiosity of gifted children.

Scientia Challenge: Years 7 - 10

The Scientia Challenge program features a range of exciting workshops taught over three days designed for gifted and talented high school students in Years 7-10.

Developed and led by practising experts, the workshops follow a university-style investigative structure with intellectually-stimulating content. With the level of study aimed two years higher than the students' grade level, these dynamic workshops offer gifted students a rigorous and challenging program.
